A FEW WORDS ABOUT US

Loos Computer Consulting was established to provide a high level of consulting services at affordable prices. We have worked for individuals and businesses from small to large.

Our primary consultant, Jim Loos holds several professional IT Certifications including MCSE, CDIA, A+, and MCT. With over 15 years experience in various aspects of Systems Administration, Web Design, IT Training, and Customer Support, Loos Computer Consulting is in a great position to provide the highest level of consulting services.

For additional information and samples of our work visit us online at www.loosconsulting.com. Or, call us at 402-429-4095 and we will be glad to answer any questions you may have!

We would love to provide you the same professional services we have provided to so many others and have the resources to get started today!

"From the initial consultation to the final product, Loos Consulting listened to my wants and needs and kept them in the forefront as he offered ideas and recommendations. His professionalism and expertise were evident in our discussions, but not overwhelming, and have resulted in a website that represents my company in the manner I'd envisioned."

Thane Jensen, Security Solutions Group
